

PenTwin: handwriting sample

How to write your sample

1. Use plain white paper with no lines, and a dark pen (blue or black).
 2. Copy the text below in your normal handwriting, at your normal speed.
 3. Don't try to be neat. Your everyday writing gives the best result.
 4. Keep the letters separate where you can; joined-up writing is harder to read back.
 5. Leave a little space between lines. Use a second page if you run out of room.
 6. Photograph the page flat, in good light, with the whole page in the picture.
